

Raising Hell Online: A Guide for the Cyber-Terrorist

PART I - CREATING FAKE SOCIAL MEDIA ACCOUNTS

First for profile pictures there are a variety of means to obtain these:

<https://this-person-does-not-exist.com/en>

This generates a fake picture of somehow who does not exist. At random. This is the most ethical way to do this.

Next, for address and fake numbers etc:

<https://www.fakenamegenerator.com/>

For actual burner phone number I recommend:

<https://temp-number.org>

Or

<https://www.textnow.com/>

Let me walk you through a method to make a fake profile for an attractive female.

1) First we need a name and fake info for her

Go to [fakenamegenerator.com](https://www.fakenamegenerator.com)

Gender Random ▾

Name set American ▾

Country United States ▾

Generate [Advanced Options](#)

These name sets apply to this country
American, Hispanic

Logged in users can view full social security numbers and can save their fake names to use later.

2) Now we need some photos

Go to leolist.cc and pick your favorite hot girl

BINGO!

Edit we need to edit the photo so it doesn't come up on search results or have EXIF info. And most of these ads are fake anyways or of obvious bimbos so who cares? Not me.

Now we set the color to greyscale or similarly edit it and copy/paste a few screenshots until the photo is removed of all EXIF data and such:

Obviously most people will think this girl may be a bit much of a thot so we can further crop the picture:

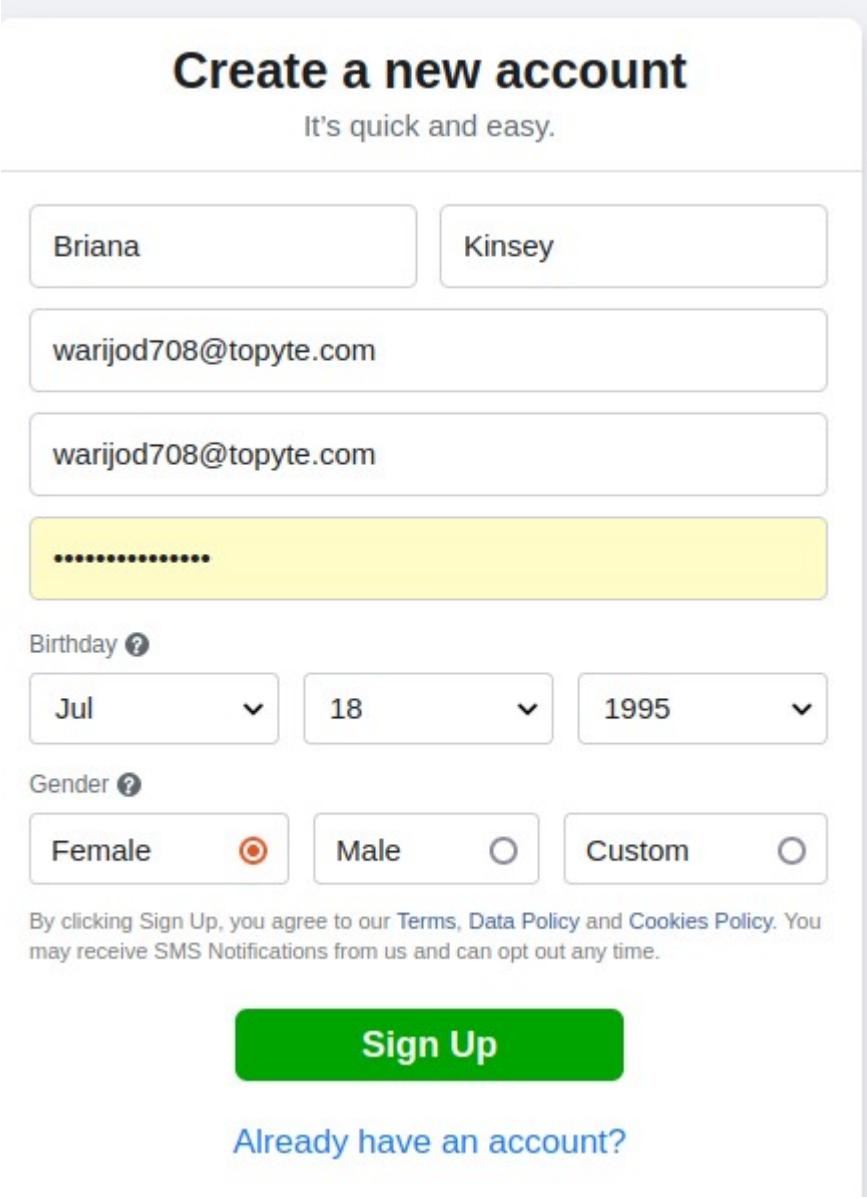

3) Creating a Facebook for Briana

Go to temp mail to get a disposable email:

<https://temp-mail.org/>

Don't use VPN or Tor to make Facebooks it'll get banned almost instantly

A screenshot of the Facebook 'Create a new account' form. The title 'Create a new account' is in bold black text, with the subtitle 'It's quick and easy.' below it. The form contains several input fields: a first name field with 'Briana', a last name field with 'Kinsey', an email field with 'warijod708@topyte.com', and a password field with a yellow background and masked characters. Below the password field is a 'Birthday' section with three dropdown menus for month (Jul), day (18), and year (1995). Below that is a 'Gender' section with three radio button options: 'Female' (selected), 'Male', and 'Custom'. At the bottom of the form is a green 'Sign Up' button and a link 'Already have an account?' in blue text. A small disclaimer at the bottom states: 'By clicking Sign Up, you agree to our Terms, Data Policy and Cookies Policy. You may receive SMS Notifications from us and can opt out any time.'

For best results use a 15-20 character password generated randomly:

<https://passwordsgenerator.net/> is recommended

Welcome to Facebook, Briana

Upload a Profile Picture

Add a photo so friends can easily identify you.

Add Picture

Find People You Know

Search by name or look for classmates and coworkers.

Q Search by name

Get to know your privacy settings

You control how you share your stuff with people and apps on Facebook.

And we are in.

Same principles apply to any blogging, social media or other website. You can use VPN and tor for a lot of them.
